Healthier Approach To Spring Cleaning

Cleaning up the winter dirt and grime from your home is good for your health. Using smart techniques and sound products prepares your home for the upcoming summer months.

- 1. Power-Dust Your Home:** Be thorough, with a dust-trapping cloth, and remember to replace filters in your heating and cooling system to protect against indoor allergens.
- 2. Green Clean:** Make your own non-toxic cleaners. White vinegar and water works well for glass, floors and bathrooms to keep away mold and mildew. For drains, use a half-cup of baking soda, a cup of vinegar and a kettle of boiling water to unclog and keep clean. Keep a bottle of Borax, a natural product, around for tough cleaning jobs.
- 3. Clean Your Blinds and Drapes:** Dust and allergens accumulate on window treatments, so make sure you wipe them down thoroughly.

Spring is also a great time to get your finances in shape!

- 1. Pay Yourself First** – It's important to save a set amount out of each paycheck.
- 2. Set a Monthly Budget** – It's a great idea to set a monthly budget for food, entertainment, phone, insurance, etc., and stick to it.
- 3. Pack a Lunch** – Brown bag it; even a few days a week will help save you money.
